ADMINISTRATIVE - INTERNAL USE ONLY

14 December 1983

MEMORANDUM FOR: Director of Data Processing

ATTENTION: Executive Officer, ODP

STAT   FROM:

Chief, Management Staff

SUBJECT: Weekly Report for Week Ending 16 December 1983

AIM CODEWORD FACILITY

Members of the Systems Programming Division (SPD) briefed the Chief, Special Security Center, OS, on the protection of documents provided by the AIM system and, in particular, the codeword facility within that system. Discussions centered around the certification of SCI access approvals held by AIM users. It was agreed that these approvals would be extracted from the OS computer system on a periodic basis and then inserted into the AIM User Directory. SPD will develop programs to accommodate these procedures. (U/AIUO)

STAT

1985 Congressional Budget Submission

Our 1985 Congressional Budget was submitted on 8 December 1983. The first draft of the ADP services write-up for the CBTB has been prepared by the Comptroller's Office from our submission. (U/AIUO) (ODP ONLY)

STAT

Headquarters Regulations and Notices

ODP concurred on the following proposed Headquarters Regulations and Notices:

ADMINISTRATIVE - INTERNAL USE ONLY

ADMINISTRATIVE - INTERNAL USE ONLY

i. External Procurement Requests

The D/ODP concurred as per ____ on the following external procurement requests for ADP equipment:

o

o   DDA/OF   Four IBM PC-XT personal computers for test and
                  evaluation of the Peachtree payroll software
                  and utilization by the Liaison Office to track
                  and pay GSA work orders.

o   DDS&T/OSO   A SYSCON ARRAY PROCESSOR for use with an installed
                  VAX 11/780 for interactive manipulation

o   DDS&T/OTS   Acquisition of Gavilan, Radio Shack TRS 80
                  Model 100, Telecon 3100, Grid, NEC 8201 personal
                  computers for test and evaluation for possible
                  overseas use.

o   DDS&T/NPIC   Acquisition of a WANG VS100 system and nine
                  WANG PC 002 personal computers for use by the
                                                              (U/AIUO)

Finance

As of 14 December 1983, there are 61 outstanding advances with a dollar amount of $28,880. Currently, the delinquent advances total $3,260.

14 December 1983

MEMORANDUM FOR: Director of Data Processing

ATTENTION: Executive Officer, ODP

STAT FROM:

Chief, Consulting and Assistance Group

SUBJECT: Weekly Report for Week Ending 16 December 1983

ACTIVITIES FOR THE CURRENT WEEK:

STAT

STAT — Quarterly Security Automated Name Check Activity (SANCA) processing was found to be incorrect. The problem, which is believed to be in the update cycle, has been turned over to the programmer. Further quarterly processing will be postponed until the customer moves to Building. (U)

STAT Central Badging (CENBAD) Bi-weekly was completed late due to data problems. A bad record on the data base had to be identified and removed before processing could continue. (U)

STAT On 9 December, SAB and ISB split Aim on VM1 to improve the Aim response time on VM1. All non-ODP DDA Aim users (601) were moved to a separate Aim system running on VM1. This split was costly because it required that we give up two 3380 user packs to build the second VM1 Aim system. (U)

STAT

STAT The first running of the CAMS2 Data Base Management Specialist course was conducted by TRW at Chamber of Commerce during the week of 5 December. In attendance from ODP/IMD/DBMB were:

STAT The trouble desk handled a total of 925 phone calls for the week 5-9 Dec; 600 incoming, 325 outgoing calls and 135 Wang calls. 153 of the incoming calls reported terminal problems. (U)

The Training and Information Branch (T&IB) set up student USERIDs and software to assist Office of Logistics (OL) personnel in the instruction of the Agency Standard Automated Property System (ASAPS).

STAT

(U)

STAT
STAT   completed the Television Production Workshop
training course. (U)

Consulting Services Branch (CSB) personnel assisted SPD in the
identification and correction of a problem with VM/SP CP Release 3
STAT involving incorrect handling of terminal function keys. (U)   (B.

A significant number of VM1 users have complained about overall
slow performance of the system during the past week. To improve the AIM
(Automated Information Management) system performance on VM1 Directorate
of Administration (DA) AIM users were moved to a separate copy of AIM,
in preparation for the third VM processor in early 1984.   (U)   (B.

STAT

New procedures for coordinating the installation, testing, and user
training of Xerox 2700 printers are being initiated by CSB in
coordination with SPD and ED personnel. In these procedures CSB will
act as the focal point for tracking the progress of these Xerox 2700
STAT activities and for user interface. (U)

The Automatic Information Management/Word Processor (AIM/WP)
Reference Manual has been revised to include all user comments, and was
submitted to OL/P&PD for reproduction and dissemination. (U)   (A.

STAT

PERSONNEL:

STAT
STAT   joined the Data Conversion Branch on December 12.
She is located in 510 Key Building. (U)

UPCOMING EVENTS:

Planning for the installation of two more copies of the CAMS2
system on the second 3081 has been completed. The installation is under
way and is anticipated to be completed in time to meet the ODP delivery
STAT to TRW 9 January 1984. (U)

STAT
STAT   and three Hadron contract instructors will attend
the Data Training Conference from 11-15 December. (U)

STAT   will attend a demonstration of wide-screen projectors
to be sponsored by OT&E on 16 December. These projectors can be
directly interfaced to the Delta Data 7000 terminal for classroom
STAT instructional use. (U)

STAT FROM:

Chief, Management Information Systems Group

SUBJECT: Weekly Report for Week Ending 16 Dec 1983

Major Activities During the Past Week:

STAT   CAPER/OP (Case Applicant Processing Evaluation Report).
The Installation of a new minicomputer in   Building to
support OP Project CAPER will not be completed on schedule.
Renovation of the mninicomputer room (3N08) is behind schedule
thereby delaying the minicomputer installation. OP has been
STAT advised of the change in schedule.   (U)

STAT   attended a meeting
with representatives from Price Waterhouse. They are developing a
payroll system for the Department of the ARMY using Structured
Analysis techniques and are ready to begin detail design. The
STAT meeting was arranged by   and was very informative.
STAT   (U)

        Preliminary meeting was held with OF/CD on Thursday the 8th
to review a draft proposal for delivering the T&A process by
December 1984. Several OF/CD concerns were identified and are
being researched for further consideration in a subsequent
STAT meeting scheduled for next week.   (U)

        We anticipate having an ISSUES and ALTERNATIVES document for
the T&A process completed in draft form by the end of this week.
STAT   (U)

        LIMS (Logistics Integrated Management System). The LIMS
development contractor, Booz, Allen & Hamilton (BAH) presented
their proposed approach to implementing a LIMS Basic Operating

SUBJECT: SSG Report for Week Ending 16 December 1983

13 December 1983

MEMORANDUM FOR: Director of Data Processing

STAT   FROM:

Acting Chief, Special Systems Group/ODP

SUBJECT: Report for Week Ending 16 December 1983

MAJOR ACTIVITIES DURING THE PAST WEEK:

STAT   C/SSG/ODP, met with   C/Improved NPIC
System (INS), to discuss procedures for defining and
controlling the interface between INS and the CAMS2 Processing
Segment (P/S). A method was devised whereby each segment will
appoint a single point of contact who can commit his respective
segment to comply with an agreed to specification or change to
the interface. In this manner, both segments will be designing
and implementing the same capabilities and will not waste
STAT   resources incorporating uncoordinated changes.   (U)

The major focus within the CAMS project is on Integration
Test. Of the 129 test cases, 70 have been completed
successfully. For the month of November, 20 of the scheduled
39 cases were successfully completed. The Integration Test
activity is scheduled for completion on 15 January 1984. (J.

UNCLASSIFIED

STAT [ ] (U)

The delivery dates for the major project documentation items have been rescheduled due to the increased personnel demands imposed by Integration Test. The draft of the User's, Administrator's, and Operator's Manuals is now due on 1 February, with the final copy to OL/P&PD for reproduction by 16 March 1984. Delivery to the customer is to be completed by 1 May. The as-built program documentation is due for delivery on

STAT 23 April. [ ] (U)

A draft of the Phase III Functional Requirements Document
STAT (FRD) was delivered by COMIREX for review. [ ] (U)

The CAMS2 (P/S) Interface Control Documents (ICDs) for AIRES, SAFS, and NPIC have been converted from VM/SCRIPT files to WANG word processor files. The ICDs were converted in preparation to begin Phase III Requirements documentation. The documentation will be prepared and maintained by the CAMS2 (P/S) Systems Integration contractor, Synectics Corporation. The VM/SCRIPT to WANG conversion effort was accomplished by ODP/Consulting Services Staff. This was a large and complex task that was completed in a most accurate and timely manner.

CAMS (speel out etc)

a large mainframe computer,

STAT

IBM installed the new 3081 Processor in the ▮▮▮▮▮▮ Computer
Center for the CAMS2 System on ~~Saturday and Sunday,~~ 10-11
December. ~~Problems were encountered during the upgrade to a~~
~~model 3084 causing the CAMS System to be out of service for~~
~~several hours on Monday, 12 December.~~ (U)

features
~~features~~
Certain features of

(this special

SAFE   SAFE system ────→ were made

~~The~~ DIA ~~SECMAIL and SECTEXT onlines were~~ available to ~~the~~
DIA users on the weekend 10-11 December. Availability was
requested by DIA due to the Middle East ~~crisis.~~ ~~Normally these~~
~~onlines are available only Monday through Friday.~~ (U)

STAT

STAT

SPD completed software for the binary synchronous
telecommunications link between the P&PD Dicomed film recorder
and the ▮▮▮▮▮ Center on December 9. Combined with a new
TELEGRAF device interface, this link will provide high quality
color slides, VUGRAFs and other film output for general users
beginning early next year. (U)

STAT

AIM   modified and enhanced
The AIM system on VM1 was ~~split in half~~ to provide better
response. This was accomplished ~~without problems and done~~ in
such a way as to minimize the impact ~~of splitting AIM to~~ our VM1
users. Response was immediately improved and feedback from the
users has ~~all~~ been ~~quite~~ positive. (U)

STAT

Release 3 of CP replaced release 1 of CP last week on VM1
and VM2. This was a major change to the VM Operating System, but
the first week of production was quite stable and completed with

STAT
STAT

no major unresolved problems. There was only one problem, which involved function keys, reported by our users, but otherwise this major software change to the operating system went basically unnoticed by our large user community in the [   ] Computer Center. (U) [   ]
